

“APS (Art of Private Shaking) Glass & Bar Supply” GmbH was founded in 1994. Currently we have more than 100 employees across Europe who are eager to help with any request.

Our first European subsidiary was established in the Netherlands (Amsterdam) in early 2004. Followed by APS Poland (Warsaw) in 2007 and APS Czech Republic (Prague) in 2009. Our second subsidiary in Germany (Stuttgart) was opened in 2010 followed by APS Belgium (Brugge) in 2014 as well as APS Baleares (Mallorca) in 2016. Our latest subsidiary in Germany (Cologne) was established in 2020.

Our sources around the world enable us to guarantee the best value prices. We regularly do MTO “made to order” items such as custom bar mats, stirrers, imprinted straws, vinyl and s/s shakers, holders for napkins, special pourers, ice buckets and other bar and custom designed tabletop items. We love the challenge to meet & exceed B2B customers’ requirements.

With our own printing facilities in Germany and Poland we are independent from decorators and are able to offer all kinds of decoration on most of our items without having high MOQs.

We distribute all products throughout Europe using alliance partners in Sweden, France, Switzerland, Spain and the UK, the same way we do with our own subsidiaries. This Alliance group helps to fulfill customer requests all over Europe.

After 30 years, we have gained experience and knowledge by travelling, sourcing and communicating with suppliers and customers from all over the world. Thus, deepening the professional competence our customers expect.

### Capacity

1 US-fluid oz. = 29,57 ml  
All fluid capacities are figured to overflow.

### Case Pack

Full case quantity is appreciated for your order.  
For breakdowns please ask your dealer.

Measurements and capacity are approximately ± 5% variation.

### Capacity Lines

These items are available with capacity lines.  
Please contact us for availability.

### Hand Cut

These items are finished with a hand-cut fine pattern.

#### ● Safedge® Rim Guarantee

For over 70 years, Libbey's proven commitment to quality has been backed by our well-known guarantee, "a glass if the rim of a Safedge glass chips." If the rim of any glass covered by the safedge guarantee chips, Libbey will replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. Of course, this guarantee does not cover breakage.

#### ✦ Sheer Rim/D.T.E

Libbey's Sheer Rim/D.T.E. (Dura Temp Edge) stemware and tumblers feature a beadless edge which is first cracked-off then polished to produce a fine, yet durable edge. This creates a combination of elegance and affordability in glassware for operators looking to upgrade their beverage service, while still maintaining longer service life. Sheer Rim/D.T.E. Tumblers and Stemware are guaranteed against chipping of the Rim.

#### ★ Heat-Treated

Libbey's heat-treated tumblers and stemware are created through a special heating and rapid cooling process after the glass is formed. This secondary process on the "blown" glassware is performed only on the upper portion of the glass where most abuse occurs. Libbey's heat-treated glassware offers increased resistance to thermal and mechanical shock and is recommended for fast service cycle operations.

#### ■ Safedge® Rim and Foot Guarantee

If the rim or foot of any one-piece stemware item chips, Libbey guarantees to replace or refund the price of the glass when it is returned to the dealer/distributor from whom it was originally purchased. This guarantee covers such lines as Embassy, Embassy Royale, Kentucky, Catalina, Teadrop, Perception, etc. This guarantee does not cover breakage.

#### ▲ Finedge®

Finedge glassware features a minimum bead and is available on a variety of tumblers and stemware. This finely rimmed glass-ware brings subtle beauty to any establishment.

#### ✦ Duratuff®

The Libbey DuraTuff treatment is a special thermal afterprocess for "pressed" tumblers and stemware such as Titan, Pentagon, Summit, Facets Tumbler, Dakota and Endeavour. The DuraTuff process is performed only on the upper portion of pressed tumblers and stemware to increase their resistance to thermal and mechanical shock. Libbey's DuraTuff process produces durable glassware with prolonged service life for the foodservice industry. Look for the DuraTuff name embossed on all Libbey DuraTuff products.

### Measurements

### PRODUCT FEATURES

All of our raw materials in glass production come from natural sources.

Our products are safe to carry food and drinks without harming your health.

Glassware designed to bring out maximum aroma and flavor for increased quality perception in serves.

### PROFESSIONAL

These days it's often a necessity to use space-saving stackable glassware. Glassware with stackable design not only assures a longer service life but also reduces glass replacement costs. We have several solutions to maximize every square inch of horizontal storage space. Combine our performance enhancing technology with attractive looks and you get space-saving glassware that earns its keep by delivering real value.

The design includes a stacking ring to stabilize stacks, optimize support and prevents damage and glasses getting stuck together.

Our products do not contain lead in their composition.

An increasing number of stemware lines feature our thin yet robust stems. Proof that elegance can go hand in hand with sturdiness.

Finesse Laser Cut rim is an after process which results in a very fine polished rim offering the ultimate lip-feel and pure taste experience.

The colour is embedded in the mass of the glass during its production, and not applied by an after-process, and therefore fully resistant to dishwashing and scratching.

### DURABLE

This special thermal after-process for "pressed" tumblers strengthens the upper portion of the glass, the area most vulnerable to breakage. It increases the resistance to thermal and mechanical shock which results in remarkably durable glassware with prolonged service life.

# Onis

## NEW BRAND. SAME GLASS.

ONIS is the new brand of two European glassmakers, who brought authenticity and uniqueness to glassmaking. Continuing to design outspoken glassware with a statement to bars, hotels and restaurants, inspiring professionals to create value to drink creations. All details count when creating that ultimate drinking experience, where the glass is the finishing touch.

ONIS always has the right glassware. From Durable pieces that are practical to use and meet the highest Professional standards to Iconic classics stylishly fitting all venues, resulting in the perfect serve.

With ONIS Xtratuff treatment you don't have to compromise on strength. The treatment applied to the upper part of the glass adds toughness, durability and more resistance to breakages. This is highly convenient for stackable glassware, which need to be able to deal with the wear and tear of daily life.
